

Job Description

Title: Project Manager - BioCNG Projects

Location: Flexible within India

Job Type: Full-Time

Alchemy Global (www.alchemyglobal.group) is in the process of building numerous BioCNG projects across India. In this context, we are in the market for project managers (PMs) to join our team. Project Managers will be responsible for overseeing the planning, execution, and successful completion of these projects. Your role will involve coordinating with various stakeholders, ensuring project timelines and budgets are met, and maintaining the highest standards of quality and safety.

Key Responsibilities:

- Lead and manage BioCNG projects from initiation to completion
- Develop detailed project plans, timelines, and budgets
- Coordinate with internal teams and external stakeholders, including vendors, contractors, and regulatory authorities
- Supervise vendor teams, monitor project progress, identify potential issues, and implement corrective actions
- Ensure compliance with all relevant health, safety, and environmental regulations
- Prepare and present project reports to senior management
- Travel frequently within India to oversee project sites and ensure smooth operations

Qualifications:

- Minimum 4 years of experience in project management, ideally in the bioCNG or adjacent industries
- Track record of successfully managing complex projects
- High energy, enthusiasm and ability to thrive in a small entrepreneurial environment
- Strong leadership, organizational, and problem-solving skills
- Willingness to travel regularly within India
- Knowledge of project management software and tools

How to Apply:

Interested candidates are invited to send their resume and a cover letter outlining their relevant experience and why they are a good fit for this role to info@alchemyglobal.group
